EXRAND-M-37

1. Special Briefings.

25X1 a. [] introduced [] RED/TSG/NPIC, who 25X1
presented the NPIC position on the "Chip" system and implementation
potentials. Members, after some discussion, generally decided to utilize
the information for their own planning purposes. NPIC's decision not to
utilize an in-house selected-area-duplication system could have an impact
on future envisioned equipment development on one hand, but, on the other
hand, agencies and services of the Community would judge their needs and
would proceed with "chip" related equipment if desired. It was also
noted that selected area duplication materials made at the processing
site and distributed wherever requested could still be a valid Community
requirement. The subject was discussed by the membership only in light
of possible exploitation equipment requirements; it was also noted that
25X1 [] currently has a selected frame printer system project underway at
25X1 [] Westover AFB.

25X1 b. [] introduced the special briefing on "Free Radical" 25X1
photo materials by representatives of [] The brief- 25X1
ing was presented by: [] 25X1
25X1 [] The briefing was conducted at an unclassified
level but was proprietary in nature. A statement of the briefing will be
sent separately at a higher classification.

2. Approval of Minutes.

[] 25X1
The minutes of the previous meeting were approved.

3. Announcements.

25X1 a. [] commented on the security classification of all 25X1
future minutes of EXRAND. It was noted that [] Security 25X1
Officer from CIA, was present. A discussion on the nature of certain
classifications took place which will not be reported in these minutes.

25X1 b. [] introduced his replacement as Commanding Officer of 25X1
25X1 NRTSC, [] who will replace
25X1 [] Both will assume their new duties in December.

EXRAND-M-37

25X1 c. [] reported that by mid-March NRTSC will have Dual Gamma
viscous capabilities and that shortly thereafter [] Westover will also
have these capabilities. 25X1

25X1 d. [] announced that a [] rear projection
viewer has been declared surplus by NPIC, although not yet by the Agency;
25X1 [] requested that anyone interested in its acquisition contact
him. 25X1

4. Old Business.

25X1 a. [] commented that the Technical Task Team had met for
three days and that the meetings were most successful and very informa-
tive. An analysis paper on the work accomplished and a R&D project list
will be presented at the November EXRAND meeting. The Team has found and
identified several areas of duplication and has matched the projects to
the EXRAND objectives. An outstanding success was manifested by the
establishment of a communications rapport and the full appreciation of
Community coordination of R&D by the Team members. 25X1

b. The final new EXRAND objectives paper was accepted unanimously
by the membership for presentation to COMIREX for approval. 25X1

25X1 c. The Procurement Coordinating Team's report and proposed brief-
ing text on "benefits derived from EXRAND activities" was accepted by
the membership. [] will arrange for its presentation to COMIREX. 25X1

25X1 d. [] stated that [], Chairman, NIDWG, will
present a special briefing on VHR to the EXRAND membership and associates
at 0900 hours Wednesday, 2 December 1970, at NPIC. 25X1

25X1 e. [] announced that at the 18 November meeting Mr.
[] NPIC Observer on the CCB, will present a briefing of CCB
sponsored equipment under development which could relate to exploitation.
25X1 (NOTE: Since the meeting, an additional special briefing has been sched-
uled of about one-half hour duration on "Future Color Projects"; by NPIC.) 25X1
